

Sustainable Outwood Initial Privacy Policy and Cookie Information

A full privacy policy is being created to demonstrate how Sustainable Outwood uses information and complies with GDPR regulations. The website will be updated accordingly.

Privacy in brief

Sustainable Outwood is a sub-committee of Outwood Parish Council: it does not have its own corporate entity or bank account.

Sustainable Outwood does not pass on any information to third parties and aims to be GDPR compliant at all times. Any matters regarding GDPR compliance will be discussed with Outwood Parish Council and appropriate action taken.

Sustainable Outwood is currently working with Avieco on a feasibility study for potential community projects. Avieco has its own privacy policy.

To achieve community engagement, Avieco is seeking information from villagers in the form of a survey and a focus group. The survey includes a consent box for responders to agree (or not) to being contacted by Avieco or Sustainable Outwood committee for further information or engagement.
